Narcissus Emperor

HE planting of hardy bulbs for naturalizing in woods, fields, orchards and meadows is at once the most simple, permanent and inexpensive method of obtaining a fine display of early flowers, at the same time beautifying the outlying grounds. The yearly increase in the demand for bulbs to be used for this purpose is the strongest testimonial to the pleasure and satisfaction derived from these wild or natural gardens, which, becoming permanent through natural increase, are not readily destroyed, and require little or no further care.

## HYACINTHS

Culture in Pots or Pans. These may be planted any time from September to November, though early planting as a rule gives the best results. Firm, heavy bulbs should be selected, and, if to be planted singly, use a 5 -inch pot or four bulbs of one variety to an 8 -inch seed pan. A piece of broken pot placed over the hole and 1 or 2 inches of sphagnum moss placed on this, make excellent drainage. A light, rich soil is essential; one made up of one-third rotted cow-manure, one-third rotted sod, and the balance of leaf-mold and sharp sand, is excellent. When planting, break off all offsets if any at the base of the bulb, and have the top of the bulb just below the soil, and the soil about an inch below the top of the pot; give a good watering, put in a cool place and cover with 5 or 6 inches of sifted coal ashes; this prevents the bulbs from rising while they are making roots and holds the moisture. After eight weeks the roots should be strong enough to allow them to be brought to the light and into the room where they are to bloom.

Culture in Glasses. Single varieties are best adapted for this purpose, and any of those listed under our Exhibition Hyacinths would be suitable. Use soft water and put a piece of charcoal into each glass to keep the water pure; allow the bottom of the bulb to just come in contact with the water, keep in a dark, cool place till the roots are about 6 inches long when they may be brought into light and warinth to blooin. Should the water evaporate or become foul replenish with fresh water of about the same temperature.

Culture in the Open Garden. Bulbs may be planted from September until the ground closes, although the best results will be obtained if planted before the end of October. Plant 6 inches deep and 6 inches apart in soil which has been dug at least 12 inches deep and well enriched with well-rotted cow-manure. Before the ground freezes deep enough to reach the bulbs, cover with leaves or other good litter, 6 to 8 inches deep, to protect the bulbs from freezing and thawing through the Winter, thus being assured of larger and stronger spikes of bloom. The covering should be removed early in the Spring.

## SPECIAL NAMED BEDDING AND FORCING HYACINTHS

These are large, solid bulbs of distinct and decided shades, producing large spikes of flowers, and all blooming at the same time, which makes them of great value for bedding out, as one can obtain the exact color effect desired. They are also desirable for forcing in pots or pans.

## Special Bright Red Special Pink <br> Special Rose

# Special Dark Blue <br> Special Light Blue <br> Special Porcelain Blue 

## SELECTED UNNAMED HYACINTHS

These are sound, healthy-flowering bulbs, superior to the mixed Hyacinths usually offered, and are well adapted to outdoor planting or forcing, giving good spikes of flowers in fine colors.

Either Single or Double, 5 cts. each, 50 cts. per doz., $\$ 4.00$ per 100, $\$ 35.00$ per 1000

## SITUATIONS FOR GARDENERS, FARMERS, ETC.

We shall be pleased at all times to receive inquiries from any person desiring the services of Gardeners, Farmers'oriAssistants. We keep a list of reliable persons wanting such situations.

## TULIPS

Universal favorites, and the most popular and attractive flowers for early Spring display in the garden or for Winter blooming in the house or conservatory. Thev are perfectly hardy and of easiest culture in any good garden soil, seldom failing to give the greatest satisfaction. When massed in beds or large clumps, the best effect is obtained. Double and single sorts, when planted together in clumps among the shrubs or perennials, give a longer season of bloom than of either were planted alonc. For best effect, when planted in small clumps, the bulbs should be set 4 inches deep and 4 inches apart, but in large beds or borders a distance of 5 or 6 inches between the bulbs can be allowed.

## NAMED SINGLE EARLY TULIPS

Our collection embraces all the choiccst varieties for forcing and bedding. The figures before the names indicate the height in inches, and the * the best sorts for forcing. Doz. 1001000
10 Artus. Brilliant scarlet; a splendid bedder

## NAMED DOUBLE TULIPS

These are useful for bedding and forcing; the large, Peony-like blossoms are highly ornamental, coming into bloom about a week or more after the single early scrts, and lasting considerably longer in flower. They make the best display, and the effect is better when planted one variety in a bed or clump. The letter after the name indicates the time of blooming; those marked A bloom together, followed in about a week by B, and C, the latest.

Star ( ${ }^{*}$ ) indicates best sorts for forcing.
11 *Boule de Neige. A. Large, Doz. 1001000 pure white, Peony-like flower. $\$ 0.50 \$ 3.50 \$ 30.00$

Darwin Tulips

## DARWIN TULIPS, SINGLE LATE-FLOWERING

A distinct race of Single Late Tulips with immense flowers, of well-rounded form, on tall, thick stems from 2 to 3 fcet in height. This, with their very brilliant colors, ranging from almost pure white through all the shades of pink and purple to the most intense red, makes them unsurpassed for planting out or for cutting. A bed of these tall Darwins, with an undergrowth of Myosotis, Daisies, etc., is a most beautiful sight; planted among the shrubbery, they give life and color to the garden. The varietics we offer are selected from a very large collection as the best and most distinct, containing nonc but the large-flowering sorts. Forcing sorts marked with an asterisk (*).

Doz. 100

L'Ingenue. Soft, rosy pink, with broad border of rosy white, beautiful.
$\$ 0.85 \$ 6.00$
*Loveliness. Soft carmine rose................. . $50 \quad 3.50$
*Madame Krelage. Bright rosy pink, with lighter margin.
$.50 \quad 3.50$

Massachusetts. Vivid pink, white center.

*Wm. Pitt. Brilliant crimson ..... 60 ..... 4.50
Yellow Darwin. Clear canary yellow ..... 75 ..... 5.50
Special Mixture. Choice varieties and colors ..... 2.25

## NARCISSI, or DAFFODILS

Among the most beautiful and fragrant of our hardy Spring-flowering bulbs the Narcissi enjoy great popularity and occupy a very prominent place in the world of flowers, doing well in almost all soils and situations, for naturalizing among the grass, planting among the shrubbery, on the borders of ponds and streams, and in formal beds. For house or greenhouse culture they are equally desirable, planted in pots or bulb pans, several bulbs of one variety in each, and treated as recommended for Hyacinths.

Selected bulbs only are offered and mostly double-nosed

## MEDIUM TRUMPET NARCISSI

In this class will be found many of the most graceful and beautiful Daffodils, equally desirable for beds and borders, as well as for indoor cultivation, and especially adapted to nature-garden planting.
Barri conspicuus. Broad, yellow Doz. 1001000 perianth, and wide, short cup, edged with bright orange scarlet
$\$ 0.20 \quad \$ 1.50 \quad \$ 12.00$
Barri, Flora Wilson. Pure white perianth, yellow cup, edged with orange scarlet; beautiful

$\begin{array}{lll}.25 & 1.75 & 15.00\end{array}$
$\begin{array}{lll}.50 & 3.50 & 30.00\end{array}$

## NARCISSUS, POETAZ HYBRIDS

A comparatively new race, resulting from a cross between the Poeticus ornatus and the best sorts of the Polyanthus. They are perfectly hardy, very vigorous, and bear generally three or four flowers on a stem; with the delicate fragrance and size of the Ornatus and the free-flowering qualities of the Polyanthus. They are also excellent for growing in pans indoors.

Irene. Silky primrose yellow, with orange eye, and large, broad truss, with eight or nine flowers.
$\begin{array}{lll}.70 & 5.00 & 40.00\end{array}$
Klondyke. Perianth yellow, with deep golden yellow eye. One of the deepest yellows; large truss.
$1.50 \quad 12.00$
Triumph. Pure white, with deep, yellow eye; the largest of its class... $1.00 \quad 8.00$

## POLYANTHUS NARCISSI

Beautiful, free-flowering, sweet-scented flowers, of the easiest culture. Excellent for forcing or growing in water, bearing tall trusses of delicately scented flowers. Treat as recommended for Hyacinths. They are not Hardy.

# CHINESE SACRED NARCISSUS 

Joss Flower, or Chinese New Year Lily

This is the variety grown by the Chinese for decorating their temples or Joss houses on their New Year's Day. They are mostly grown in water in fancy bowls, with enough fancy pebbles to keep them upright when in flower. They can also be grown in soil, sand or moss. The flowers are mostly white, with yellow cups, and very fragrant.
Extra-large Bulbs. 15 cts . each, 2 for 25 cts., $\$ 1.50$ per doz. Original baskets of 30 bulbs, $\$ 2.50$.
Mammoth Bulbs. 20 cts. each, $\$ 2.00$ per doz. Original baskets of 30 bulbs, $\$ 4.00$.
Small White Pebbles. 10 cts. per qt., 4 qts. 35 cts., 8 qts. 65 cts.

## CROCUS, giant flowering

One of our earliest Spring flowers. Beautiful, and a universal favorite. A bed, border or some clumps of these are essential to make the flower garden complete. To be had in the highest perfection, they should be planted 3 inches deep in a deep, rich, sandy loam, and in a sunny location, though they will succeed in almost any soil or situation. When planted in connection with

Narcissus, Double Von Sion-See page 11 Chionodoxa, Snowdrops or Scilla they are very effective. They may also be grown indoors in bulb pans, etc., as recommended for Hyacinths. Best results outside are obtained from early planting.

## ANOMATHECA GRUENTA

A very pretty Freesia-like plant for pot culture. About 10 inches high, with brilliant crimson-scarlet flowers. 20 cts. per doz., $\$ 1.25$ per 100 .

## ANTHERICUM

Splendid, hardy, perennial plants, with spikes of Lily-like flowers about 2 feet high. Very useful for cutting. Home-grown roots ready in October.
Liliago (St. Bernard's Lily). Pure white.. Each Doz. $\$$ Liliastrum major (St. Bruno's Lily).

Large, pure white
$.20 \quad 2.00$

## ARUM

Curious and interesting plants, with Calla-shaped foliage and flowers.
Cornutum (Sauromatum guttatum, or Monarch of the East). This interesting bulb produces, without soil or water, when placed in a warm room or greenhouse during Winter, a very large, curious flower-spathe of reddish color, 16 to 18 inches in length. Large Bulbs. 20 cts. each, $\$ 2.00$ per doz.
Sanctum (Black Calla). From the Holy Land, with large, blackish-purple flowers. 15 cts. each, $\$ 1.50$ per doz.

## BABIANA

Charming genus of Spring-flowering bulbs from Cape of Good Hope. For house or greenhouse. Dark green, hairy leaves, and showy spikes of flowers of richest coloring. Mixed Varieties. 40 cts. per doz., $\$ 2.50$ per 100.

## BULBOCODIUM VERNUM

One of the earliest, hardy Spring flowers, with masses of rich, rosy purple Crocus-like blossoms. Beautiful for clumps or borders. 60 cts per doz., $\$ 4.00$ per 100 .

## CALLA LILIES (Richardia)

An old and well-known favorite for house culture, requiring a rich soil, plenty of light, heat and water while growing. Allowing them to rest from June to last of August, and then repotting will greatly aid in the profusion of bloom.
White Calla, or Lily of the Nile (R. Athi- Each Doz. opica). Largest Sized Bulbs . $\$ 0.25 \$ 2.50$ Large Bulbs............................. . . . 15 . 1.50
Elliottiana (Golden Calla). Rich, clear, golden yellow, the dark green foliage spotted with white.
$.50 \quad 5.00$
Godfrey. Short, sturdy growth; very freeflowering; medium-sized, white flowers; excellent for cutting.

Calla lilies-Continued
Pearl of Stuttgart. A dwarf variety of sterling merit. Flowers white, of medium size and perfect form. Remarkable for the number of flowers produced by strong plants. Very small plants will flower. .
Spotted-leaf. Pure white flowers, with dark green foliage, spotted with white. Excellent for planting out in beds in the Spring.

## CAMASSIA

Handsome, hardy, Spring-flowering bulbs, with fine spikes of flowers, fine for rock gardens, sheltered and partially shaded situations, planting among shrubs and for naturalizing.
Esculenta (Indian Quamash). Fine spikes of pretty, dark blue, star-shaped flowers, resembling those of some of the Seillas. . $\$ 0.25 \$ 1.50$
Cusicki. A remarkably beautiful, bulbous plant with flower spikes about $21 / 2$ feet high, bearing many pale lavender, starshaped flowers with yellow anthers, the plant when in flower resembling a small Eremurus

## CHIONODOXA (Glory of the Snow)

One of the most beautiful and effective of our Springflowering bulbs, coming into bloom soon after the snow is gone, and lasting a long time. They succeed well in any good garden soil, and are excellent for clumps, edgings or naturalizing.
Gigantea. Large flowers of soft
lavender blue, with white centers. $\$ 0.25 \$ 1.50 \$ 12.00$
Luciliæ. Brilliant sky blue, with
white center..................... . . . $25 \quad 1.50 \quad 12.00$ Sardensis. Rich; deep blue....... $\quad .25 \quad 1.50 \quad 12.00$

## CROWN IMPERIALS

Showy and stately, hardy border plants, producing whorls of pendant, bell-shaped flowers at the top of the stalk, which grows about 3 feet high. They succeed well in any good garden soil and should be planted two or three in a clump, and 6 inches deep.

Each Doz.
Crown on Crown. Whorls of bright red
flowers.
\$0.20 \$2.00
Gold-striped. Crimson; variegated foliage. . $30 \quad 3.00$

Rosea multiflora. Delicate pink. 30 cts. per doz., $\$ 2.00$ per 100.
Viridiflora. Soft green, black center. 50 ".cts. per doz., $\$ 3.50$ per 100 .
Vulcan. Crimson, shaded orange. 30 cts. per doz., $\$ 2.00$ per 100 .
Mixed. Finest varieties. 15 cts. per doz., $\$ 1.00$ per 100

## LACHENALIAS

Charming family of Cape bulbs of easy culture in the house. They have beautiful pendent flowers and spotted foliage. Plant six bulbs in a 6 -inch bulb-pan and grow cool until well rooted.
Tricolor. Yellow and green, edged with Each Doz.
crimson................................... . $\$ 0.30$ \$3.00

## LEUCOJUM (Snowflake)

Very pretty bulbous plants for partially shaded places. Valuable for borders, rockwork and for naturalizing in the woods and grass. The flowers resemble the Snowdrop, but are much larger, with a delightful fragrance, and grow 12 to 18 inches high. Excellent for cutting.
Vernum (Spring Snowflake). Pure white, with green spot on each petal near the point. Blooms about a month after the Snowdrop. 25 cts. per doz., $\$ 1.75$ per 100.
Æstivum (Summer Snowflake). Similar to the above but blooming in June. 25 cts. per doz., $\$ 1.75$ per 100.

## LILIES FOR FORCING

Bulbs should be potted in a rich soil, using $31 / 2$ to 6 -inch pots, according to the size of the bulb, and the pots plunged in a coldframe, or kept in a cool place, to get a strong root-growth. When well rooted and started 6 or 8 inches they should be shifted into larger pots to bloom, setting the bulb considerably deeper. A suitable compost is equal parts of turfy loam, leaf-mold, rotted cow-manure and sand. Bulbs should be potted as soon as received.

## LILIUM candidum (Madonna Lily)

Mammoth Northern-Grown. These are of the largeflowered, pure white, thick-petaled variety, and grown for us in the north of France. Excellent for forcing and superior as a garden Lily. Southern-grown bulbs should be avoided as they are thin-petaled and badly diseased. 15 cts. each, $\$ 1.75$ per doz., $\$ 12.00$ per 100.

## Lilium Harrisii (Bermuda Easter Lily)

Choice, thoroughly ripened stock from the best growers in Bermuda. Each Doz. 100 Extra-large Bulbs. 7 to 9 in. cir. . . $\$ 0.20 \$ 2.00 \$ 15.00$ Mammoth Bulbs. 9 to 11 in . cir.... $40 \quad 3.50 \quad 30.00$

## Lilitim longiflorum Formosum

This type of the L. longiforum which comes from the island of Formosa is becoming more popular every season. It is of strong, healthy growth, 2 to 3 feet high, with beautiful, white, trumpet-shaped Lilies about 6 inches long, and may be had in bloom from early December to Easter.

Each Doz. 100
Extra-large Bulbs. 7 to 9 in........ $\$ 0.15 \$ 1.50 \$ 10 . C 0$

Special Mammoth Bulbs. 10 to 12
in......:............................. . 35 $3.50 \quad 28.00$

Lilium speciosum rubrum

## LILIES FOR OPEN GROUND

The Lily is without a rival among bulbous plants for beauty, stateliness and variety of coloring, while many sorts are delightfully fragrant. With few exceptions they prefer a light, well-drained, loamy soil and partial shade. Deep planting is recommended, from 6 to 12 or more inches, according to variety, and a covering of leaves or some litter to prevent the frost reaching the bulb, as it is absolutely necessary for their success that the bulb be protected from freezing and thawing. Some varieties are ready in August, and others not before October or November, and to insure the planting of the late arrivals the place should be covered to keep the frost out.
Auratum (Golden-rayed Lily of Japan). Large; pure white, with crimson spots and a gold Each Doz. 100 band through center of each petal. 3 to 5 ft . July to Oct. ## LILY OF THE VALLEY

## (Convallaria)

A great favorite with every one, and the most useful and charming of our Spring-flowering plants. The pure white, delicately scented, bell-shaped blossoms are very useful for cutting, and always in great demand. When planted outdoors, a partially shaded situation suits them best.
Grey's Perfect Forcing Pips. The finest grade of pips that come to this country and especially selected for our large private trade, which demands only the best, for forcing throughout the year. We carry these in cold storage and can furnish them at any time. Three to four weeks are usually allowed for foreing cold-storage pips into flower. $\$ 2.75$ per 100 ; per case of 250 , $\$ 6.50$; per case of $500, \$ 12.50$; per case of $1000, \$ 24.00$.
Grey's Perfect Planting Pips. These are of the same excellent quality as our forcing pips, and are without an equal for outdoor planting, producing strong spikes with 10 to 15 extra-large, pure white bells. Ready December 1. $\$ 2.50$ per $100, \$ 20.00$ per 1000.
Planting Clumps. This is the Dutch Valley, each clump containing many flowering pips and excellent for outdoor planting. 30 cts. each, $\$ 3.00$ per doz., $\$ 20.00$ per 100.

## MONTBRETIA

Very desirable, gracefully branched, hardy border plants for Summer flowering, and are becoming more popular every season. The brilliantly colored Gladioluslike flowers are borne on long, graceful spikes in the greatest profusion, and are excellent for cutting and general decorative purposes. They grow about 2 feet high, and bulbs should be planted 5 inches deep and well mulched to protect them during Winter. Ready
for delivery after January 1.

rupicola. Long, graceful, arched foliage. $\$ 4.00$ to $\$ 10.00$ each.

Kentia Belmoreana

## Hardy Perennial Plants

 SELEGT LIST FOR AUTUMN PLANTINGWe would recommend those who have never undertaken the culture of hardy plants to commence with a few varieties most easily grown, and gradually increase their collections from season to season, and, our word for it, it will lead to a confession that there is nothing in the way of bedding-out or ribbon-gardening which can compare in any way to the beauty and refined charm of this class of plants. We can furnish a good selection of hardy plants which may be expected to give successional bloom throughout the Spring, Summer and Fall months, and, if the choice is left to us, will take special care to select such varieties as afford the most satisfactory results.

Our connections with the best and leading nurseries at home and abroad put us in a position to furnish the very best of all hardy nursery stock. We also furnish estimates on the laying out, planning and improvement of private estates, and furnish experienced gardeners to carry out the work. We shall be pleased to correspond with those contemplating improvements or planting hardy stock of any sort.

## Any sorts not listed can be furnished at lowest prices

ACHILLEA (Milfoil or Yarrow).

YUCCA filamentosa (Adam's Needle). Fine foliage and flowering plant. June and July.
$.25 \quad 2.50$

## Roses

The Rose needs no praise and little comment. Every one knows the Rose, and no garden is ever satisfactory without its Rose-bed. The secret of success is simply this: Throw out the soil 2 fect deep, and put in any kind of manure 1 foot deep; incorporate it with earth a little, and then cover it with 4 inches or more of soil, then plant the Rose bushes firmly, and fill up with good soil. Roses should be planted very deep, except in very clayey soils.

The Rose-bed should be in the full sun, if possible, and the surface be left a little hollow, so that water may be put on in Summer*and settle to the roots. Such beds will be full of healthy bushes and glorious blossoms.

## HARDY HYBRID PERPETUAL ROSES

Strong 2 -year-old plants, 40 cts. each, $\$ 4.00$ per doz., $\$ 30.00$ per 100.

Pearl. Prolific sort; free from mildew. The fruit is large, light green, and of fine quality. $\$ 2.00$ per doz.
Downing. Whitish green; prolific. $\$ 1.50$ per doz.

## POT-GROWN STRAWBERRY PLANTS

The Strawberry will grow in any good garden soil where the ground has been thoroughly prepared. For family use we recommend planting them in double rows, 1 foot apart each way and 3 feet between the double rows. Our pot-grown Strawberry plants are well-rooted, healthy plants, ready for shipment in August, and by setting them any time during August and September, a fine crop of fruit may be had the next season. The follow ing sorts have proved the most satisfactory for growing in this locality.

## $\$ 3.50$ per 100, $\$ 30.00$ per 1000; 50 at 100 rate, 500 at 1000 rate.

Abington. Strong grower and great yielder. Large, bright red berries, firm and fine flavor. Early to medium.
Barrymore. The conical-shaped berries are of medium size and of a dark, glossy, crimson color; the flesh is a rich red and very juicy. Medium.

Mill Hill Hamburgh. Bunches and berries very large, round, deep black; solid, tender and melting; very juicy, rich and sweet.

## Varieties for Hot Vinery

Black Alicante. Large berries; jet black; firm and sweet with fine aroma; flavor similar to Black Hamburgh.
Gros Colmar. Bunches and berries very large, round, black and sweet. One of the best late sorts.
Gros Maroc. Bunches and berries large, oval; deep red purple; sweet and richly flavored.
Lady Downes' Seedling. Large bunches of round, black berries; very firm, sweet and rich.
Mrs. Pince's Black Muscat. Bunches large; berries oval, sweet and rich.
Muscat of Alexandria. Bunches and berries large, oval; pale amber, firm, sweet and rich; fine muscat flavor.
West's St. Peter's. Large, round berries; black, juicy and sweet.

## LAWNS

The following simple directions may be found useful to those who are not familiar with lawnaking:
The soil should be of good depth, moderately rich, and in many cases the land should be carefully drained Grading should be done and the soil thoroughly pulverized by careful harrowing and raking Some good fertilizer pure ground bone, wood ashes or a specially prepared lawn feitilizer - should be used After spreading the fertilizer, the surface should be carefully raked and rolled The rolling often develops uneven spots which should be leveled before the seed is sown. After sowing, the ground should again be lightly raked and rolled.

The selection of seed is important Use only such mixtures as are free from weed seeds, and such as will produce a firm, strong turf and a fine growth A liberal quantity is necessary to secure good results (not less than 64 pounds per acre). The best time to make a lawn is from the middle of August through September. If seed is sown at this season, the grass will become strong enough to withstand the Winter, and a good lawn is assured the following season. If seed cannot be sown at this time, it should be sown as early as possible in the Spring
Boston Lawn Grass Seed. This mixture is composed of such varieties as long experience has shown to be adapted
to produce a permanent heavy turf. Weighs 16 lbs . per bus, Qt. 20 cts ., 4 qts $75 \mathrm{cts} ; \mathrm{pk}$, $\$ 125$, bus, $\$ 4.00$.
Grey's Special Recleaned Lawn Grass Seed. Recleaned seeds only are used in this mixture, and it is as free
from weed seeds and chaff as the latest improved seed-cleaning machinery can make it, and it is composed of
such varieties as make a close and lasting turf. In recommending this grade to our customers we are sure
we are recommending a mixture which cannot be excelled for general lawn purposes. Weight 32 lbs per bus,
Sow 64 lbs. per acre Per lb, 35 cts, 4 lbs, $\$ 135,8 \mathrm{lbs}, \$ 250$, 32 lbs , $\$ 900$.
Mixture for Shaded Lawns. Fine grasses selected especially for locations partially shaded by buildings or trees. Weighs 24 lbs. per bus. Per pt., 20 cts.; per qt., 35 cts ; 4 qts., $\$ 125,1 / 4$ bus., $\$ 2.25$, bus, $\$ 8.00$

## SPECIAL MIXTURES FOR TENNIS COURTS, GOLF LINKS, ETG.

The following mixtures have been used on many prominent golf courses, etc., in this vicinity, and have given entire satisfaction.
Fair-Green Mixture. For general use on golf links. Per lb, 30 cts .; $100 \mathrm{lbs}, \$ 28.00$.
Putting-Green Mixture. A combination of grasses best suited to produce a close, firm, and lasting turf, which will endure frequent cuttíng. Per qt., 35 cts.; $1 / 4$ bus., $\$ 2.00$; $1 / 2$ bus., $\$ 365$; bus. ( 25 lbs ), $\$ 700$
Tennis-Court Mixture. A mixture of fine grasses especially adapted to tennis courts, which will bear trampling without injury. Per qt, 35 cts.; 4 qts., $\$ 1.25$, $1 / 4$ bus., $\$ 2.25$; $1 / 2$ bus, $\$ 4.00$; bus. ( 25 lbs .), $\$ 800$.
Ball Grounds Mixture. This mixture is used by both the leagues in Boston with the most satisfactory results. 4 lbs., $\$ 1.35$; 8 lbs., $\$ 2.50$, 32 lbs. ( 1 bus), $\$ 9.00$
Bowling Green Mixture. A mixture of fine, hardy grasses, especially adapted for bowling greens. Per qt., 35 cts.; 4 qts, $\$ 1.25$, pk, $\$ 225$; bus. ( 25 lbs .), $\$ 800$.

## CHOICE GRASS SEED

Many growers of grass seeds offer several grades of each variety, varying greatly in price. We do not recommend, nor do we sell, the inferior grades. Those which we offer are strictly High Grade, and the prices at which we offer them should not be compared with those quoted for inferior grades.

## Prices may change as the season advances. If wanted by mail, add Parcel Post rates for postage.

Awnless Brome Grass (Bromus inermis). Recommended for dry, arid soils where other grasses do not grow. Per lb., $30 \mathrm{cts} . ;$ per 100 lbs ., $\$ 25.00$.
Beach Grass (Ammophila arundinacea). Valuable for sowing on railway banks, seashore, etc. Per lb., 70 cts.; per 100 lbs., $\$ 60.00$.
Creeping Bent (Agrostis stolonifera). One of the most valuable lawn grasses because of its short growth and deep green, fine-leaved foliage. Its stoloniferous roots form a strong, close, enduring turf, which is not injured by being frequently walked on. Per lb., 65 cts.; per $100 \mathrm{lbs} ., \$ 60.00$.
Crested Dog's-tail (Cynosurus cristatus). Good for permanent pasture for sheep; is productive, early, and one of the best grasses for lawns; 35 lbs . to the acre. Per lb., 50 cts .; per 100 lbs ., $\$ 40.00$.
Hard Fescue (Festuca duriuscula). Admirable pasture grass of fine quality; thrives well in dry situations; 30 lts. to the acre. Per lb., 35 cts.; per $100 \mathrm{lbs} ., \$ 30.00$.
Italian Rye Grass (Lolium Italicum). Thrives in any soil; yields an early and abundant crop; valuable for mixing with other pasture grasses; sow 50 lbs . per acre. Per lb., 15 cts.; per $100 \mathrm{lbs} ., \$ 12.00$.
Kentucky Blue (Poa pratensis). Also called " June Grass "; an early grass of much value; will do well upon any ordinary soil; stands the heat of Summer remarkably well. For pastures and lawns it has no superior. It is usually sown mixed with other fine grasses; when used alone, 30 to 40 lbs . per acre. Blossoms in June. Fancy cleaned seed. Per lo. ; per 100 lbs . Price on application.
Lime Grass (Elymus arenarius). Has wide-spreading, thickly matted roots which tend to hold drifting sands. Valuable for seashore and embankments. Per lb., $60 \mathrm{cts}$. ; per $100 \mathrm{lbs} ., \$ 50.00$.
Meadow Fescue (Fcstuca pratensis). This is excellent for hay when sown with other grasses, such as Orchard Grass and Timothy, and is also one of the best grasses for permanent pasture. Sow 40 lbs . per acre. Per lb., 35 cts.; per 100 lbs., $\$ 32.00$.
Meadow Foxtail (Alopecurus pratensis). One of the best and earliest of pasture grasses; thrives best in moist localities; 30 lbs . to the acre. Per lb., 65 cts.; per $100 \mathrm{lbs} ., \$ 60.00$.
Orchard (Dactylis glomerata). One of the earliest grasses; yields immense crops and is excellent for pasture or hay; should be cut as it is coming into bloom, and will produce a heavy second crop; one of the best grasses. Sow 40 lbs. per acre. Per lb., 30 cts.; per 100 lbs ., $\$ 25.00$.
Perennial Rye Grass (Lolium perenne). A valuable grass for pastures or meadows, also very valuable where mixed with other grasses for lawns, golf links, etc. The seed is large and heavy, and produces a good growth in five or six weeks. We offer an extra choice lot of seed. Per lb., 15 cts.; per 100 lbs ., $\$ 12.00$.
Red Top (Agrostis vulgaris). A valuable native permanent grass, growing in almost any soil, moist or dry, but pays well for high cultivation ( 14 to 16 lbs . per bus.). Sow 40 lbs . per acre, if alone. Per lb., 18 cts.; per 100 lbs., $\$ 15.00$.
Red Top Fancy. Clean seed. Absolutely clean and free from chaff; 36 lbs. per bus. Per lb., 30 cts.; per 100 lbs., $\$ 25.00$.
Red or Creeping Fescue (Festuca rubra). A creeping-rooted grass forming a close and lasting turf. Is especially adapted to dry and sandy soils, resists extreme drought, and is useful for gravelly banks and exposed hillsides. It is also valuable for shaded locations. Per lb., 45 cts.; per $100 \mathrm{lbs} ., \$ 42.00$.
Rhode Island Bent (Agrostis canina). Resembles Red Top, but is of dwarfer habit; excellent for lawns. Sow 4 bus. per acre, if alone ( 10 lbs . per bus.). Per lb., 65 cts.; per $100 \mathrm{lbs} ., \$ 60.00$.
Rough-stalked Meadow Grass (Poa trivialis). A thickly-matted, spreading-rooted species, forming a firm, fine turf, especially adapted to the shaded parts of lawns ( 26 lbs . per bus.). Per lb., 70 cts.; per $100 \mathrm{lbs} ., \$ 65.00$.
Sheep's Fescue (Festuca ovina). In grass mixtures for high or dry land this is especially valuable, as it thrives on poor, light or gravelly soils ( 16 lbs. per bus.). Per lb., 40 cts.; per $100 \mathrm{lbs} ., \$ 35.00$.
Slender Fescue (Festuca tenuifolia). A variety of Sheep's Fescue, but with finer leaves. Useful in mixtures for dry banks and slopes ( 22 lbs. per bus.). Per lb., 50 cts.; per 100 lbs ., $\$ 45.00$.
Sweet Vernal, True Perennial (Anthoxanthum odoratum). Useful to mix with other grasses for lawns, on account of its early growth and fragrant odor, which it imparts when drying. Per lb., 75 cts.; per 100 lbs ., $\$ 70.00$.
Tall Fescue (Festuca elatior). Succeeds best on moist, alluvial and strong, clayey soils. Is especially valuable for permanent pastures ( 22 lbs. per bus.). Per lb., 40 cts .; per $100 \mathrm{lbs} ., \$ 38.00$.
Tall Meadow Oat Grass (Avena elatior). This grass produces an abundant supply of foliage, and is valuable for pasture on account of its early and luxuriant growth ( 13 lbs . per bus.). Per lb., 40 cts.; per 100 lbs ., $\$ 35.00$.

## CHOICE GRASS SEED-Continued

Timothy, "Herd's Grass" (Phleum pratense). One of the most. valuable grasses and more generally used for hay than any other. It prefers a moist, loamy soil, not doing well on light soil. It is generally sown with Red Top and Red Clover, and makes the most valuable hay ( $45 . \mathrm{lbs}$. per bus.). Per lb., 15 cts.; per bus., $\$ 6.50$.
Various-leaved Fescue (Festuca heterophylla). Very early, hardy perennial, thriving best in cool, moist soils. It is also useful in shady locations ( 15 lbs . per bus.). Per lb., 45 cts.; per 100 lbs ., $\$ 40.00$.
Wood Meadow (Poa nemoralis). A variety specially suited for the shaded portions of lawns where other grasses do not grow. Very permanent and hardy ( 18 lbs . per bus.). Per 1 lb ., 70 cts .; per 100 lbs ., $\$ 65.00$.

## CLOVER SEEDS

Prices subject to change with the market. Add Parcel Post rate, if wanted by mail.
Alfalfa, or Lucerne (Medicago sativa). Seed can be sown from May to August in this latitude, and much later in the South. The land should be deeply plowed and carefully prepared; 20 to 25 lbs . of seed per acre are required. Best results are obtained where the seed has been treated with some good nitrogen-gathering bacteria. The land should also be carefully limed. Per lb., 35 cts.; per 100 lbs ., $\$ 30.00$.
Alsike, or Swedish (Trifolium hybridum). Hardiest of all the clovers and on rich, moist soil yields an enormous quantity of hay or pasturage. Per lb., 35 cts.; per 100 lbs ., $\$ 30.00$.
Crimson Clover (Trifolium incarnatum). An annual variety, largely used in the South for feeding green and for hay. Sow in April or May; 20 lbs. to the acre. Not always hardy in New England. Per lb., 25 cts.
Red Clover, Medium (Trifolium pratense). The leading variety of clover for pastures or meadows. Requires deep, rich soil. Sow in Spring. Per lb., 35 cts.; per 100 lbs., $\$ 30.00$.
Red Northern, or Mammoth. Grows four to five feet high, and is used to plow under for manure. Per lb., 35 cts.; per 100 lbs., $\$ 30.00$.
White Dutch Clover (Trifolium repens). The best variety for lawns, as it forms a close herbage and remains green throughout the season; valuable when mixed with grass seeds for pasture. Per lb., 65 cts.; per $100 \mathrm{lbs} .$, $\$ 60.00$.

## GRAINS, ETC.

Rye, Winter. For Fall sowing. Sow $11 / 2$ bus. per acre ( 56 lbs . per bus.). Per bus., $\$ 2.25$.
Wheat, Winter. Klondyke Bald. White grain. Sow $11 / 2$ bus. per acre ( 60 lbs. per bus.). Per bus., $\$ 2.50$.
Vetches, Sand, Winter or Hairy (Vicia villosa). Thrives on poor, arid, sandy soil, and can be sown either in Spring or Fall. If cut as soon as full grown and before flowering, a second growth will be made. Sow 40 to 50 lbs. per acre. Per lb., 18 cts.; per bus. ( 60 lbs .), $\$ 9.00$.
Wild Rice (Zizania aquatica). Seed should be planted in the Fall; but, if this cannot be done, the seed should be kept moist until ready to sow. Per lb., 50 cts.

## FERTILIZERS

Ashes, Unleached Hardwood. As a fertilizer for lawns, gardens and fruits, hardwood ashes are unequaled. In bags, per 100 lbs., $\$ 2.00$; per ton, $\$ 32.00$.
Bone, Coarse or Cracked. Ground coarse for grape borders or poultry. 100 lbs., $\$ 3.25$.
Bone, Fine Ground (Bone Meal). 10 lbs., 60 cts.; 25 lbs., $\$ 1.25 ; 50$ lbs., $\$ 1.75$; 100 lbs., $\$ 2.75$.
Bone, Pure Flour of. Ground very fine. Per 100 lbs., $\$ 3.50$.
Clay's Fertilizer. This valuable imported manure is especially recommended to all who grow either fruit, flowers or vegetables, and wish to bring them to the highest perfection. Per bag of 14 lbs ., $\$ 1.25$; 28 lbs., $\$ 2.25 ; 56$ lbs., $\$ 4.00$; 112 lbs., $\$ 7.25$.
Chrysanthemum Manure, Thomson's Special. Entirely soluble and very powerful; especially suitable for top-dressing Chrysanthemums and similar plants. Per lb., 25 cts.; 7 lbs., $\$ 1.25$; 14 lbs., $\$ 2.25$; 28 lbs, $\$ 4.00$; 56 lbs., $\$ 7.25$.

Charcoal. Coarse and fine. Each, per lb., 10 cts.; 10 lbs., 50 cts.; 100 lbs., $\$ 3.00$.
Lawn and Garden Dressing. An odorless fertilizer, prepared entirely from chemicals, and designed for top-dressing lawns. Trial bags for 1000 square feet, 50 cts.; trial bags for 2500 square feet, $\$ 1.00 ; 50-\mathrm{lb}$. bags for 5000 square feet, $\$ 1.75 ; 100-\mathrm{lb}$. bags for $1 / 4$ acre, $\$ 3.00$; ton, $\$ 50.00$.
Imperial Plant-Food Chemicals. This material is over three times as strong in actual plant-food as any other commercial fertilizer.

## FERTILIZERS-Continued

Sheep Manure. We offer two brands. Pure Natural, and Perfection Pulverized at the following prices: Pure Natural, 10-lb. pkgs., 50 cts.; 25 lbs., $\$ 1.00$; 50 lbs., $\$ 1.75$; $100 \mathrm{lbs} ., \$ 3.25$. Perfection Pulverized, $50 \mathrm{lbs} ., \$ 1.50 ; 100 \mathrm{lbs}$., $\$ 2.50$; ton, $\$ 40.00$.
Soot, Imported Scotch. Prevents mildew when mixed with sulphur at the rate of one-third sulphur
and two-thirds soot; also a good fertilizer. In original bags only, varying in weight. Per 100 lbs ., $\$ 3.00$.
Vine, Plant and Vegetable Manure, Thomson's. A safe and reliable food and stimulant for every fruitbearing plant, also for flowering plants and vegetalles. Prices: 14 lbs., $\$ 1.25 ; 28$ lbs., $\$ 2.50 ; 56$ lbs., \$4.00; 112 lbs., $\$ 7.25$.

## INSECTICIDES

Aphis Punk, Nikoteen. Destroys green fly, thrips, etc., in greenhouses. Pkg., $60 \mathrm{cts} . ;$ case of 12 pkgs ., $\$ 6.50$.
Aphine. For the destruction of the green, black and white fly, thrips, red spider, mealy bug, caterpillars, scale, etc. Qt., $\$ 1.00$; gal., $\$ 2.50$.
Black Leaf 40 (Nicotine Sulphate). Highly recommended by spraying experts for destroying all sucking and many chewing insects. $\mathrm{Oz} ., 25$ cts.; $1 / 2 \mathrm{lb}$., $75 \mathrm{cts} . ; 2 \mathrm{lbs} ., \$ 2.50$.
Bordeaux Mixture. A concentrated mixture for use with water in preventing and checking fungous diseases. 1 -qt. ean, 40 cts.; 1 -gal. can, $\$ 1.25$; 5 -gal. can, $\$ 5.00$.
Fungine. An infallible remedy for mildew, rust, bench rot and other blights. Pt., 50 cts.; qt., 75 cts.; gal., $\$ 2.00 ; 10-\mathrm{gal} . \mathrm{keg}, \$ 15.00$.
Creosote, Gypsy Moth. For the destruction of the eggs of gypsy moth. Qt., 20 cts.; gal., 50 cts.; 5 gals., $\$ 2.25$; in barrels, at 35 cts. per gal.
Kerosene Emulsion, Sterlingworth. A valuable remedy against scale and all soft-bodied and sucking insects. 1 -pt. can, 25 cts.; 1-qt. can, 40 cts.; 1-gal. can, $\$ 1.00 ; 5$-gal., jackets, $\$ 4.50$.
Lemon Oil. A cheap, safe and effectual insecticide. Dilute with water, 30 to 50 parts. $1 / 2$ pt., 25 cts.; pt., 40 cts.; qt., 75 cts.; 2 qts., $\$ 1.25$; gal., $\$ 2.00$.
Lime-Sulphur Solution. Will completely destroy San José scale. Qt., 40 cts.; gal., 75 cts.; 5 gals., $\$ 2.25$; 50 -gal. bbls., $\$ 11.00$.
Nicoticide Fumigating Compound. For killing all kinds of insects on plants in greenhouses and frames; Sold in cans as follows: 4 oz ., 70 cts . $1 / 2 \mathrm{pt}$., $\$ 1.25$; pt., $\$ 2.50$; qt., $\$ 4.50 ; 1 / 2$ gal., $\$ 8.25$; gal., $\$ 15.00$. Fumigators, 50 cts . each, consisting of three partsthe pan, wire frame and lamp.
Nico-Fume Tobacco Paper. For fumigating greenhouses. Packed in special friction-top tins. 24 sheets, 85 cts.; 144 sheets, $\$ 4.00 ; 288$ sheets, $\$ 7.50$.
Nico-Fume Liquid. A nicotine solution of exceptional purity. Does not stain or injure blooms
nor leave a disagreeable odor. $1 / 4 \mathrm{lb} ., 50 \mathrm{cts} . ; \mathrm{lb} .$, $\$ 1.50 ; 4$ lbs., $\$ 5.50 ; 8$ lbs., $\$ 10.50$.
Nikoteen. Pt. bottles, $\$ 1.50$ each, 5 for $\$ 7.00$.
Richard's X-L-All Liquid Insecticide. Destroys mealy bug, red spider, etc. Pt., 75 cts.; qt., $\$ 1.25$; $1 / 2$ gal., $\$ 2.00$; gal., $\$ 3.75$.
Richard's X-L-All Vaporizing Compound. A safe, cheap, effectual material for the destruction of inseets in greenhouses. In liquid form. Bottle No. 2 , sufficient for 20,000 cubic feet of space, $\$ 4.50$. No. 3, sufficient for 10,000 cubic feet, $\$ 2.50$. Fumigator for same, $\$ 1.10$.
Scalecide. For the destruction of San José scale and all soft-bodied insects. Qt., 40 cts.; gal., $\$ 1.00$; 5 gals., $\$ 3.25$; 10 gals., $\$ 6.00 ; 30$ gals., $\$ 15.00 ; 50$-gal. bbl., $\$ 25.00$.
Soap Spray, "Imp." The base is pure soap. It contains vegetable poisons, harmless to plants, but peculiarly effective against all insect pests. Very effective in killing the white fly. One gallon makes 12 gallons of spraying fluid. Qt., 55 cts.; gal., $\$ 1.65$; 5 gals., $\$ 6.50 ; 10$ gals., $\$ 12.00$.
Soap, Whale Oil and Tobacco. Possessing all the virtues of whale oil soap and the valuable insecticide properties of tobacco and potash. Full directions for use on each package. Prices: 1-lb. box, 20 cts.; $5-\mathrm{lb}$. box, 75 cts.; $10-\mathrm{lb}$. box, $\$ 1.25$; 100 lbs., $\$ 10.00$.
Soap Sprayer, Barrie's. See page 40. Each, $\$ 4.00$.
Sulphur, Flowers of. Prevents mildew on grapevines, bushes, etc. Lb., 8 cts.; 5 lbs., 25 cts.
Sulpho-Napthol. 8 -oz. bottle, 50 cts ; qt., $\$ 1.00$.
Thrip Juice No. 2. Very effective against thrip, aphis, red spider, mealy bug, soft scale and sucking insects. Pt. 60 cts.; qt., $\$ 1.00$; gal., $\$ 3.50$.
Tobacco Dust. Lb., 10 cts.; 5 lbs., 25 cts.; 50 lbs., $\$ 2.25$; 100 lbs., $\$ 4.00$.
Tobacco Stems. Per lb., 5 cts.; 10 lbs., 40 cts.; large bales or cases, each, $\$ 2.00$.
Vermine. Destroys cut, grub, eel and wire worms, root maggots, slugs and ants without injury to vegetation. $1 / 2$ pt., 40 ets.; pt., 65 cts.; qt., $\$ 1.00$; gal., $\$ 3.00$; 5 -gal. keg, $\$ 12.50$.

## PEAT, LEAF-MOLD, ETC.

Cocoanut Fiber. Exceedingly useful to the gardener for many purposes. Screened and sifted. 100-lb. bag, $\$ 2.00$.
Rotted Fibrous Peat. Valuable when used in loam or in repotting plants. $1 / 2 \mathrm{pk}$., 20 cts.; pk., 30 cts.; bus., $\$ 1.00$; bbl., $\$ 2.00$.
Silver Sand. For mixing with potting soil, etc. Pk., 50 cts.; bus., $\$ 1.50$.

Leaf-Mold. Best quality. $1 / 2$ pk., 20 cts.; pk., 30 cts.; bus., $\$ 1.00$; bbl., $\$ 2.00$.
Moss, Live Sphagnum. Bus., $\$ 1.50$; bbl., $\$ 3.00$.
Moss, Dry Sphagnum. Bbl.-bag, $\$ 1.50$; bale, $\$ 6.50$.
Orchid Peat or Fern Root. Best selected. Hand picked. Per bus., $\$ 1.50$; per bbl., $\$ 3.50$.
Prepared Potting Soil. Prepared specially for pot plants. $1 / 2$ pk., 20 cts.; pk., 30 cts.; bus., $\$ 1.00$; bbl., $\$ 2$.

## OILSKIN CLOTHING, ETC.

When spraying with lime sulphur, arsenate of lead or other solutions, a waterproof suit is essential, to protect the flesh and clothes. Those we offer are especially designed for men who work at spraying or whose work takes them into wet places and who require light-weight, waterproof garments.

To protect the eyes when spraying. 20 cts. each.

## POMONA SPRAY PUMP

The Pomona has sufficient capacity to supply two leads of hose and four nozzles. The plunger, plunger connection, gland, valves, valve seats and strainer are of solid bronze. All working parts are simple and so locatcd that they can be easily removed and cleaned. The air chamber is of steel and has a large capacity, making it easy to maintain the pressure and giving smooth operation. The lever can be adjusted for a 3,4 or $5-\mathrm{in}$. stroke, the adjustment being obtained by removing and replacing a single bolt. The agitator is very simple but effective, and is operated by the pump lever.
Pump, with agitator and hose couplings
$\$ 14.00$
Pump, with agitator and one lead of 15 fect $1 / 2$-inch discharge hose with spray nozzle
Pump, with agitator and two leads of $1 / 2$-inch discharge hose with
spray nozzle.
22.00

Either of the above mounted in Barrel for $\$ 3.50$ extra.

# Garden and Greenhouse Requisites, Miscellaneous Tools, Etc. 

Axes. Warranted steel, Wetherell's extra quality, handled. $\$ 1.00$ to $\$ 1.50$.
Baskets, Shepherd. 1 bus. $\$ 1.00 ; 2$ bus. $\$ 1.75$ each Baskets. For holding leaves. 4 bus. $\$ 3.50$ each.
Bellows, American. For applying sulphur, hellebore, etc., to plants. No. $14, \$ 1.25$; No. $16, \$ 1.50$; No. 19, \$1.75.
Bellows, Superior Dry Powder. \$1.25.
Bill Hooks. For heavy pruning. No. $2, \$ 1.50$; No. 3 , $\$ 1.75$.
Boxes for Cut-flowers. The following sizes are kept in stock. Others can be furnished promptly.

Plant Sprinklers (Rubber). Straight neck or angle neck, each, large size, $\$ 1.00$.
Pump, Kinney's Atomizer. For use in greenhouses to distribute liquid fertilizer or to mix or temper hot and cold water under pressure. $\$ 1.75$ each.
Pump Standard. A carefully constructed brass handpump which makes a continuous spray. $\$ 4.50$ each.

## PLOWS, Chicopee

No. 55. Vineyard and Garden Plow. Chilled wearing parts. Horse can walk in the furrow or on the land. Handles can be adjusted sideways or up and down. Iron beam, one-horse, with wheel. .
$\$ 9.00$
No. 0. Very Light One-horse. Wood beam, plain. Especially adapted to light soils. Strong turning qualities. Sloping landsides. Chilled wearing parts.
No. 1. Light One-horse. Wood beam, plain . . . 8.50
No. 1112 . Medium One-horse. Wood beam, plain. 9.50

## Plows, Chicopee Steel Beam

Superior turning qualities. Turns a furrow smoothly up or down on sloping land. Workmanship and material of the very best grade and quality obtainable.
No. 97. Steel Beam, Steel Plow. Large twohorse, common steel moldboard with wheel and jointer.
No. 90. Steel Beam, Steel Plow. Medium twohorse, common steel moldboard, with wheel and jointer.

## Plows, Steel Beam Chicopee Hillside

Our latest series of plows. In this series is incorporated the experience gained by years of plow building. We call attention to their light weight, large throat capacity, absence of open joints to catch trash, steel beam, and cast wearing parts that interchange perfectly.

## Eddy 666 Reversible Sulky Plow

The 1916 model has the roller-bearing Foot Trip. It enables you to lift your plow by the slightest pressure of the foot-not several complicated auxiliary parts for transmitting power-but one part only.
Our Special Spring Clevis keeps the line of draft in the right position every minute, no matter how rough or stony the ground.

The Special Tilting Device kecps the seat comfortable on the steepest slope.

All levers are in convenient reach. Castings of tough malleable iron. Bails, axles and wheels are of steel. Rcmovable dust-proof boxes. Adjustable tonguc. Width of furrow regulated by a lever from the seat. Entire plow is light of draft and of weight, yet extra strong. Price, $\$ 45.00$.
Pruners, Waters' Improved Tree. Weighs less, costs
less, lasts longer, works easier, does more and better work than any other.
Length of pole, $6 \mathrm{ft} . .$. . . . . . . . . . . . . . . . . . . . $\$ 0.85$

[^1]:    Situations For Gardeners, Farmers, Etc.
    We shall be pleased at all times to receive inquiries from any person desiring the services of Gardeners, Farmers or Assistants. We keep a list of reliable persons wanting such situations, and recommend only such as we think are competent to meet the requirements of employer. We make no charge for our services.
